

THE WORLD IS SWIMMING FOR TERRI

Terri and her dad Paul

Terri Calvesbert was born on the 24th November 1996 and just days before her second birthday fire swept through the family's one bedroom flat. **Terri** suffered 90% burns that no one thought she would survive. **Terri** has had 16 operations in the last 3 years and will need to have operations every year for the rest of her life. Let's put Dubai on the map by joining London, Mauritius, Milan, Fiji and the other 65 countries around the world who are swimming for **Terri**.

Please help this brave little girl and join this sponsored swim.
